# SL Industries Inc. Announces New Divisional President

Ventura, California, Ca. (April 20, 2011) - SL Industries (AMEX: SLI) today announced the appointment of Ken Owens to the position of President of its SL Power Electronics (SLPE) subsidiary.

Ken first joined the company in the newly created position of Vice President of Operational Excellence. Most recently he was the Senior VP, Global Operations for C&M Corporation and prior to that held several management positions with Danaher Corporation including Division President, Division General Manager and Group Vice President of Operations.

"I am pleased that Ken has accepted the opportunity and challenge of becoming the President of our Power Electronics Division. He has a wealth of management experience and particular expertise in lean manufacturing. President of the Company's largest division is a key position for the corporation and Ken's background and leadership experience are key attributes in my decision to promote him into this role," says Bill Fejes, CEO of SL Industries.

SL Power Electronics is the largest division of SLI and provides one of the industries widest ranges of power solutions designed for many markets such as industrial equipment, test and instrumentation, and is recognized as the industry leader in the medical power supply segment.

On joining his team, Ken Owens stated; "With an already strong management team and exceptional employees, products and customer base, we look forward to taking the Division to industry leading levels of customer satisfaction with world class product and service solutions, backed by superior product quality and reliability."
